

Creativity is a form of public confession, forcing us to declare our values and to acknowledge imperfection. It offers an opportunity to reflect and consider but not an invitation to criticize or praise. Creativity addresses the creator's concerns and needs, not any audience's.

Fifty-two offers something tangible in an increasingly ephemeral world. Each issue collects various moments that caught my attention. Nothing more.

PANDEMIC

We have only begun to sense the many ways the pandemic will transform society. While we cannot predict how long we will struggle with this pandemic, we can document life as we fumble forward. These photographs capture some of the effects the pandemic has already had on our lives.

ATTENTION CUSTOMERS

In accordance with recommendations by the Center for Disease Control amid the current Coronavirus (Covid-19) concerns the First Judicial District has decided to CLOSE all courts from March 17, 2020 until April 3, 2020

All matters scheduled during this period will be continued to a later date and Notices of Continuances will be mailed accordingly. Thank you for your understanding at this time.

POSTCARDS

Some people collect postcards from places they visit. I make postcards of moments I experience. And I send them to anybody who wants one.

If you want to receive an actual postcard in the mail, complete with handwritten message, let me know: drhayton.com/postcards.
